September 29, 2020

## **PETTIT MARINE PAINT INTRODUCES TWO NEW ADDITIONS TO ITS EZ PRODUCT LINE**

*Marine Paint Company Continues Pioneering Innovative Solutions*

**Rockaway, N.J.** – Pettit Paint is excited to announce the launch and addition of EZ Fabriccoat™ and EZ Speed Strip™ to its popular line of EZ products. Pettit's EZ products are geared towards simple, EZ to apply and inexpensive solutions for all over the vessel. EZ Prime, EZ Wood Sealer, EZ Poxy, EZ Tex and EZ Bilge are just some examples of this very popular line.

EZ Fabriccoat™ is a flexible coating that refinishes marine vinyl seats, panels, wrapped dashboards, carpets, PVC inflatable tubes, simulated leather and other marine fabric materials. This specially formulated flexible coating provides excellent adhesion that will not rub off, crack or peel. This high-grade marine formula will hide stains, fading and UV damage while providing strong UV protection from the sun's powerful rays. EZ Fabriccoat™ comes in six (6) popular colors and finishes.

EZ Speed Strip™ is a maximum strength marine coating remover that will quickly and efficiently strip all types of finishes from gelcoat and metal surfaces. This product is effective on topside and baked enamels, acrylics, lacquers, polyurethanes, epoxies, antifouling paint and primers.

"Pettit's very popular line of EZ products will be receiving two additions this fall, EZ Speed Strip™ and EZ Fabriccoat™. EZ Speed Strip™ is a very effective chemical stripper that works on all finishes such as bottom paint, topside paint, varnish and even baked on enamels like powder coating. This is a crowded category in the Marine Industry but the performance of EZ Speed Strip™ will have this product at the top of this segment very quickly. EZ Fabriccoat™ bonds tenaciously to and refinishes marine fabrics. These fabrics include but are not limited to vinyl seats, cushions and panels, carpets and even PVC inflatables. This product works well to refinish sunburned materials in a pontoon boat, the tubes of PVC inflatables and can be used to change the color scheme on an older vessel, just to name a few examples.", says Tom Maellaro, VP of Marketing for Pettit Paint.

EZ Fabriccoat™ will be available in six (6) colors, gloss, white, flat black, gloss black, satin gray, dark gray and satin dark khaki in 12 oz. aerosols beginning January 2021. EZ Speed Strip™ will be available in quarts and gallons December 2020.
