TOPSIDE ENAMEL

EZ

EZ-POXY® is a modern one-part polyurethane topside and deck enamel improved by the addition of silicone for a brilliant shine and easy brush-ability. Its advanced ultraviolet filters enhance the superior gloss retention and durability of polyurethane. The result is a topside finish that's exceptionally easy to apply, producing a lasting gelcoat-like brilliance with minimal effort. It is more economical, requires less effort and is more forgiving than the competition's.

Featuring easy application, less solvent smell, fewer coats to get the job done, and competitively priced, EZ-Poxy is the go-to choice for boaters all over. Give your vessel the best in protection without the extra hassle.

EZ

The **EZ PRODUCT FAMILY** was developed over the course of many years, based on proven technology and focused on providing the simplest solutions to complex refinishing problems. Each EZ product is project-specific, provides exceptional value, and is geared towards turning DIY's into Pros!

EZ

EZ-POXY PERFORMANCE ENHANCER 3021 is an additive that can be used in all Pettit high-gloss solvent-based topside paints and varnishes. Its advanced formulation reacts with the paint it is mixed in with, providing exceptional durability, gloss, hardness, gloss-retention, scratch resistance, and longevity. Unlike other two-part urethanes, paints catalyzed with this hardener can be applied over well adhered one-part finishes.

SPECIFIC DUTY TOPSIDES

EZ

EZ-DECKS is a super-tough polyurethane non-skid performance deck finish containing a polypropylene grit that produces a slip-resistant finish on all decks and cabin soles. The durable weather resistant finish resists long term abrasion and abuse. It's loaded with ultraviolet filters to fight against fading while offering superior color retention that will stay vibrant for years to come without worry of peeling or cracking. Compatible with **EZ-Poxy Performance Enhancer 3021**.

WHITE - 3127

OFF WHITE - 3128

PLATINUM - 3129

EZ

EZ-BILGE is a durable, high-performance alkyd finish specially formulated to withstand the abuses associated with boat bilges. The hard-wearing finish is resistant to antifreeze, grease, gasoline, diesel fuel, and engine oil. Its tough resilient surface will stand up to years of abrasion and wear. EZ-Bilge utilizes a high-solids formula that is easy to apply by brush, roller or spray. Compatible with **EZ-Poxy Performance Enhancer 3021**.

WHITE - 3124

BILGE GRAY - 3125

EZ

EZ-CABINCOAT is a high-performance, water-based paint specially formulated for areas such as cabins, that are prone to moisture. A super-tough finish provides a moisture resistant, mold & mildew proof surface that will stay good-looking for years. EZ-CabinCoat provides excellent adhesion to most glossy and hard-to-paint surfaces without the need for sanding. Easy application, with soap and water clean-up.

PREP & CONDITIONING PRODUCTS

ANCHORTECH™ UV RESISTANT ADHESIVE SEALANT 6010

stays flexible to withstand joint expansion and contraction caused by weather and temperature fluctuations. With a 100% waterproof seal, it won't shrink, crack, yellow, crumble or break down. This product can be applied to wet surfaces and in low temperatures. It dries fast so it's rain and paint ready in one hour. It guns out easily, tools smoothly, is low in odor and is VOC compliant.

WHITE

EZ

EZ-TEX 7100 is an easy to use epoxy repair compound where a high strength, waterproof, permanent repair is needed. This unique formula creates a tenacious bond to most surfaces. Its buttery consistency will not sag or shrink and is excellent for filling cracks, gouges and voids. A 1:1 ratio makes mixing easy. EZ-Tex can be sanded, drilled, tapped, screwed and painted once cured.

EZ

EZ-WOOD SEALER 2018 is used to seal all types of raw wood prior to painting and varnishing. The sealer acts as a moisture barrier layer to prevent peeling and excessive absorption of vehicle from topside primers, paints or varnishes. It uniformly seals and satisfies the absorbency of all woods including teak and mahogany.

EZ

EZ-FAIR EPOXY FAIRING COMPOUND 7050

is a lightweight, two-part epoxy putty designed for filling and smoothing surface imperfections above and below the waterline. The special resins used in EZ-Fair impart a high degree of water and chemical resistance to the product, making it an integral part of the Pettit Gelcoat Blister Repair System. In addition, EZ-Fair is the product of choice for fairing metal keels or any underwater surface. Available in can kits or a unique self-measuring cartridge dispenser.

BIO-BLUE DEWAXER 92 is a powerful blend of cleaning agents and silica grit that de-waxes, etches, cleans, and prepares bare fiberglass for painting, regardless of the boat's age. This solvent-free product is designed to provide an easy and trouble-free method of removing unwanted contaminants, grease, wax, dirt and mold release agents from fiberglass surfaces prior to painting.

PREP & CONDITIONING PRODUCTS

EZ

EZ-PRIME is a multi-purpose primer designed for use as a base coat whenever the surface to be painted is aged, cracked, checked, pitted or in any way less than smooth. It can be applied to fiberglass, wood, properly etched metal and previously painted surfaces. EZ-Prime fills imperfections, dries quickly, and is easy to sand. Compatible with **EZ-Poxy Performance Enhancer 3021**.

WHITE - 6149

RUSTLOK STEEL PRIMER 6980 is an easy to apply, moisture and corrosion proof primer for use on all cast iron and steel surfaces, including galvanized and stainless. Its water impervious barrier offers excellent adhesion and corrosion protection even over rusted surfaces. Recommended anytime an easy to apply, anti-corrosive barrier coat is desired.

EZ

EZ SPEED STRIP™ 125 is a powerful chemical stripper that is effective against a wide variety of marine coatings and is safe for gelcoat. Its gel consistency allows it to work on horizontal AND vertical surfaces without dripping or sagging.

120 THINNER is the general-purpose thinner recommended for thinning and cleaning up most EZ Products.

9900 SKIDLESS COMPOUND creates a non-slip surface.

ALUMAPROTECT 4400/4401 is a 2-part strontium chromate primer designed to form the ideal barrier coat over roughed bare aluminum. AlumaProtect provides maximum resistance to fresh or salt water, thus eliminating corrosion. Intended to be used as a primary coat over bare aluminum hulls and outdrives.
