PETTIT'S "EZ FAMILY" OF TOPSIDE COATINGS

Get ready for an EZ upgrade! The EZ Family of products is getting a fresh new look during the 2026 boating season, making it easier than ever to make the EZ choice for your boat. Our refreshed labels mean clearer product identification and simpler navigation, so you can quickly grab what you need and get back to making your boat look amazing. Same trusted formulas, same outstanding performance – just an EZ-er way to find exactly what you're looking for!

EZ Poxy® is a modern one-part polyurethane topside and deck enamel improved by the addition of silicone for a brilliant shine and easy brushability. Its advanced ultraviolet filters enhance the superior gloss retention and durability of polyurethane. The result is a topside finish that's exceptionally easy to apply, producing a lasting gelcoat-like brilliance with minimal effort. It is more economical, requires less effort, and is more forgiving than the competition's. ✓

Color available in aerosol form

EZ Enhancer (formerly EZ Performance Enhancer) is an additive that can be used in all Pettit high-gloss solvent-based topside paints and varnishes. Its advanced formulation reacts with the paint it is mixed with, providing exceptional durability, gloss, hardness, gloss retention, scratch resistance, and longevity.

✓ **Bring your finishes to the next level!** Look for the checkmark beside Pettit "EZ" products for compatibility with EZ Enhancer.

EZ Prep (formerly Bio-Blue 92) is a powerful blend of cleaning agents and silica grit that de-waxes, etches, cleans, and prepares bare fiberglass for painting, regardless of the boat's age. This solvent-free product is designed to provide an easy and trouble-free method of removing unwanted contaminants, grease, wax, dirt, and mold release agents from fiberglass surfaces prior to painting.

EZ Interior (formerly EZ Cabin Coat) is a water-based paint formulated for moisture-prone areas, such as cabins. Its tough, moisture-resistant finish provides a mold and mildew proof surface that will look good for years. Offers excellent adhesion to most glossy and hard-to-paint surfaces without the need to sand.

WHITE - 3121

EZ Prime is a multi-purpose primer designed for use as a base coat whenever the surface to be painted is aged, cracked, checked, pitted, or in any way less than smooth. It can be applied to fiberglass, wood, properly etched metal, and previously painted surfaces. EZ-Prime fills imperfections, dries quickly, and is easy to sand. ✓

WHITE - 6149

GRAY - 6150

EZ Deck is a polyurethane, non-skid performance deck finish that contains a special grit that produces a slip-resistant finish on all decks and cabin soles. EZ Deck is loaded with ultraviolet filters to fight against fading while offering superior color retention that will stay vibrant for years without peeling or cracking like other deck finishes. ✓

WHITE - 3127

OFF-WHITE - 3128

PLATINUM GRAY - 3129

EZ Bilge is a durable, high-performance alkyd finish specially formulated to withstand the abuses associated with boat bilges. The hard-wearing finish is resistant to antifreeze, grease, gasoline, diesel fuel, and engine oil. Its tough resilient surface will stand up to years of abrasion and wear. ✓

WHITE - 3124

BILGE GRAY - 3125

EZ Fair is a lightweight, two-part epoxy putty designed for filling and smoothing surface imperfections above and below the waterline. The special resins used in EZ-Fair impart a high degree of water and chemical resistance to the product, making it an integral part of the Pettit Gelcoat Blister Repair System. EZ-Fair is the product of choice for fairing metal keels or any underwater surface.

EZ WoodSealer is used to seal all types of raw wood prior to painting and varnishing. The sealer acts as a moisture barrier layer to prevent peeling and excessive absorption of vehicle from topside primers, paints, or varnishes. It uniformly seals and satisfies the absorbency of all woods including teak and mahogany.

IKONIKOLOR PRO® is a complete, professional-grade, two-component acrylic urethane finishing system engineered for exceptional performance in demanding marine environments. Featuring advanced coating technology, outstanding durability, superior color retention, and excellent resistance to UV exposure, abrasion, and chemicals, Ikonikolor Pro delivers stunning, long-lasting results for boats, yachts, marine components, and custom applications.

From brilliant high-gloss finishes and striking metallic and pearl effects to sophisticated matte coatings and versatile Direct-to-Metal (DTM) technology, Ikonikolor Pro offers solutions for virtually any finishing project. With extensive color-matching capabilities, fast-curing formulations, exceptional flow-out, and a comprehensive range of primers, basecoats, and clear coats, the system provides professionals with the flexibility, efficiency, and show-quality results they demand.

IKONIKOLOR PRO FEATURES

Expansive Color & Finish Options

Extensive color-matching capabilities with solid, metallic, pearl, high-gloss, and matte finishes.

Advanced Coating Technology

Professional two-component acrylic urethane formulations deliver exceptional adhesion, coverage, and color retention.

Exceptional Durability

Engineered to resist UV exposure, abrasion, chemicals, and demanding marine environments.

Versatile Applications

Innovative finishing solutions for boats, yachts, marine components, and a wide range of substrates.

Professional Application Efficiency

Excellent flow-out, smooth finishes, and fast-curing options designed to improve productivity.

LEARN MORE ABOUT
IKONIKOLOR PRO

Ikonikolor Pro Metallic & Pearl Coat are quick drying, modified acrylic matte coatings for interiors and exteriors, creating metalized and pearlescent shades that are then over-painted with glossy or matte Ikonikolor Pro clear coats. This product offers best in class flow-out, aesthetics, and brilliant effect in an endless color pallet.

Ikonikolor Pro Solid Color Base Coat is a quick drying, modified acrylic matte coating for interiors and exteriors creating solid color shades that are then over-painted with glossy or matte Ikonikolor Pro clear coats. This product offers best in class flow-out, aesthetics, and hide in an endless color pallet.

Ikonikolor Pro Single-Stage High-Gloss Coat is a single stage, two-part acrylic urethane coating that cures to a high-gloss, durable finish. This product creates a stunning, long-lasting, buffable finish using a high solids formula that offers excellent coverage and hide.

Ikonikolor Pro Matte Acrylic Urethane is a premium two-component finish delivering a smooth, sophisticated low-gloss appearance with professional-grade durability. Ideal for interior panels, overheads, consoles, cabinetry and accent surfaces, it also provides the performance required for demanding exterior marine applications.

Ikonikolor Pro DTM (Direct-to-Metal) is a professional-grade, two-component acrylic urethane coating engineered for exceptional adhesion, durability, and long-lasting color retention on a wide variety of substrates, including metal, fiberglass, and previously painted surfaces. Ideal for marine components, boat lifts, davits, and a broad range of marine applications, DTM delivers a smooth, high-performance finish with excellent resistance to UV exposure, abrasion, and harsh marine environments.

WHITE ANGEL - 90611

BLACK DEVIL - 90612

Ikonikolor Pro Express Clear Coat 920 is a fast-curing, two-component acrylic urethane clear coat engineered for exceptional gloss, clarity, and color retention. Its rapid drying technology reduces application time and accelerates return to service without sacrificing durability. Delivers a smooth, buffable, and repairable finish with excellent resistance to abrasion, chemicals, and harsh marine environments.

SNOW WHITE - 90711

SUPER JET BLACK - 90712

Ikonikolor Pro High Performance Clear Coat 1000 is a premium, two-component acrylic urethane finish designed to deliver exceptional depth, brilliance, and long-lasting protection. Featuring outstanding flow-out, superior gloss and color retention, and excellent resistance to UV exposure, abrasion, and chemicals, it produces a durable, flexible, show-quality finish that is both buffable and repairable.

Ikonikolor Pro Matte Clear Coat 1100 delivers a sophisticated, low-sheen finish without compromising the durability and protection of a premium two-component acrylic urethane system. Offering excellent color retention and resistance to abrasion, chemicals, and harsh marine environments, it can also be blended with Ikonikolor Pro High Performance Clear Coat to create customized sheen levels ranging from matte to high gloss.

RUBBERIZED NON-SKID COATING

Pettit Tuff Coat® is an advanced, water-based non-skid coating designed for boats, yachts, decks and docks. Available in the most popular colors to complement your vessel's look.

Tuff Coat's thick, flexible finish hides surface imperfections while upgrading factory non-skid surfaces. UV-protected and impact-resistant, it won't fade, peel or break down in direct sunlight, delivering long-lasting performance season after season in demanding marine environments.

This single-component, low-odor formula applies easily with a Tuff Coat roller or low-pressure spray gun. Select the texture and color that fit your needs for tough protection, lasting performance, and safe footing exactly where you need it most.

Pettit Tuff Coat Primer 4000/4001 is a two-component, water-based epoxy primer/sealer that can be used on fiberglass, gelcoat, concrete, wood, and painted surfaces to promote adhesion between the substrate and Pettit Tuff Coat. This product can be applied to damp concrete marine surfaces.

Pettit Tuff Coat Metal Primer 6950 is a matte-finish, fast drying, single-component, water-based, corrosion inhibiting primer that's designed for use on interior and exterior metal applications. Pettit Tuff Coat Metal Primer is compatible with Pettit Tuff Coat rubberized non-skid coatings. The product chemically etches for a tighter bond on clean, bare steel or aluminum surfaces.

PREP & CONDITIONING PRODUCTS

AlumaProtect 4400/4401 is a two-part strontium chromate primer designed to form the ideal barrier coat over roughed bare aluminum. AlumaProtect provides maximum resistance to fresh or salt water, thus eliminating corrosion. This product is intended to be used as a primary coat over bare aluminum hulls and outdrives.

Rustlok® Metal Primer 6980 is an easy-to-apply, moisture and corrosion-proof primer for use on all cast iron, aluminum, and steel surfaces, including galvanized and stainless steel. Its water impervious barrier offers excellent adhesion and corrosion protection, even over rusted surfaces. Rustlok Metal Primer is recommended any time an easy-to-apply, anti-corrosive barrier coat is desired.

Pettit Protect is a heavy duty, two-component epoxy coating for use where maximum resistance to fresh or salt water is required. It reduces water absorption making it an excellent choice for osmotic blister prevention and repair. Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection.

WHITE - 4100/4101

GRAY - 4700/4701

FlexPoxy 7076 is a two-part epoxy resin that does not sag, run, or shrink. Its thick formula allows it to fill large cavities in a single application. When cured, it remains flexible making it ideal for environments that require flex such as keel joint repairs. Its low odor formula is resistant to chemicals and is safe to use above and below the waterline.

Pettit Protect®Fast Dry offers all the great benefits you've come to know and love from regular Pettit Protect, but now in a faster drying formula to get you off the land and in to open waters sooner!

WHITE - 4900/4901

GRAY - 4800/4801
