# When Water Finds a Weak Spot, Repair It at the Source.

Splash Zone® A-788 is a two-part epoxy repair compound for patching and protecting marine structures exposed to water, erosion and corrosion.

## FEATURE POINTS:

- Applies and cures above or below the waterline
- Seals, fills, patches or rebuilds clean, sound surfaces
- Adheres to concrete, wood, fiberglass, steel and aluminum, including wet or dry surfaces
- Cures to a hard, abrasion- and impact-resistant surface
- Helps protect metal against corrosion and concrete or wood against erosion and deterioration

## SUGGESTED APPLICATIONS:

SEAWALLS | DOCKS | PILINGS | PIER SUPPORTS | BOAT HULLS | BUOYS
